There follows a list of orders issued by the KKE Politburo to certain
Communist organizations.

I. Enemies of the People

1. The military "responsible" of the Democratic Army of the Athens-Piraeus area is made responsible for issuing judicial decisions and orders for executing the enemies of the people.
2. The "Vigilantes", chiefs of intelligence sections, and chiefs of O. A. (Self-Defense Groups) will by the end of the month submit to the military "responsible" lists of names with biographical notes containing the activities of each one of the enemies of the People.
3. Crimes committed up to 31 January 1948 have already been unvested by the P.D.K. (Provisional Democratic Government - ?). The attention of the "responsibles" is required for the composition of lists and biographical notes so as not to include those of the enemies of the people who come under this category and who have ceased their activities (against the people).
4. The "responsible" of the Democratic Army in the above area will decide who of the enemies of the People shall be punished by death and when they shall be executed. Also those responsible for the composition of these lists must carefully check the charges of activity by the enemies of the People in order to avoid cases of personal vengeance, etc. If the military "responsible" observes transgressions of this provision he will order the execution of the transgressors as an example.

II. Makronisos

5. It is reported that the M.F.K. (Monarcho-Fascist Government -?), in its effort to obtain the greatest possible number of declarations of renunciation (of the Communist Party) has decided to transfer all the political exiles (non-military) to Makronisos. The Party and extra-Party organizations, under the leadership of the E.A. (National Mutual Aid), will organize protests in Athens and abroad and will demand that the transfers not be made.

III. Classes of 1941 to 1945

6. Because of the operations on Grammos a number of members of the Party and fellow travelers belonging to the military classes of 1941 to 1945 refuse to join the Democratic Army but insist on being inducted into their units in the Greek National Army. The Party organizations to which they belong will see that they are not in touch with the KOSS organizations in their respective units.

IV. Explosives

7. Explosives must be purchased or otherwise acquired in order to carry out the decisions of the 4th Plenum. The officials and instructors of the Party organizations will report to the "responsible" of the "Vigilantes" or to the chief of the C.A. of their organizations what quantities they have found. They will receive orders from those officials regarding the manner of purchase, transportation, and concealment of such materials.
